Minimum order:

Min shipment without charges:

Other conditions:

Contract Term: THIS IS A ONE (1) YEAR CONTRACT WITH FOUR (4) RENEWAL
OPTIONS

THIS IS A NEW CONTRACT

REMIT TO: 31305F-H AT&T WIRELESS SERVICES
PO BOX 78224
PHOENIX, AZ 85062-8224

This contract covers only those items listed in the price schedule. It is the responsibility of the agency to ensure that other items purchased are invoiced separately. State agencies will place orders directly with the vendor (creating a PG in Finet) and make payments for the same on a PV referencing the original PG. Agencies will return to the vendor any invoice which reflects incorrect pricing.

**ELECTRONIC BILLING****AT&T WIRELESS INFORMATION NAVIGATOR (Minimum Requirement: 50 End Users per Account)**

The AT&T Wireless Information Navigator (WIN) is a CD based management tool that will provide the State of Utah the ability to manage their wireless programs. WIN can present the State with virtually every detail of its wireless costs and usage every month on CD-ROM, for use with any Windows-capable PC system. The CD contains billing data, down to user detail, on all identified State of Utah Accounts. It allows for a myriad of standard and custom reports.

INTERNET WEB-SITE**AT&T EXTRANET ADVANTAGE (Minimum Requirement: \$200,000 Annual revenue per Account)**

The AT&T Extranet Advantage product will provide the State of Utah with the service, program, and product information it requires to effectively and efficiently manage its wireless programs. AT&T Extranet Advantage serves two functions.

1. It allows Telecom Managers or Programs Administrators access to wireless program information, while simultaneously providing end-users a mechanism by which they can access wireless information that related specifically to the State's policies and procedures. This specific information will reside on the State's Intranet, with AWS providing the linking Urls to the AT&T Wireless Extranet.
2. It provides the State of Utah an electronic ordering process (e-mail based now, On-line later) that is consistent with the National business ordering process. This general information will be maintained wholly by AT&T Wireless.

AT&T WIRELESS PACKET DATA SERVICE

State users using Wireless IP devices with AT&T Wireless Packet Data Service will be charged the following:

One time Activation Fee per Wireless IP device of \$45.00

State users using Wireless IP devices with AT&T Wireless Packet Data Service will also select one of the following rate plans:
